LinkedIn: linkedin.com/in/brandonmaydev | Portfolio: brandonmay.dev

JUNIOR FULL-STACK DEVELOPER

Junior full-stack developer and Computer Science student building web apps with React, TypeScript, Node.js, Express, MongoDB, PostgreSQL, REST APIs, authentication, and real-time features.

SKILLS

Languages: JavaScript, TypeScript, SQL
Frontend: React.js, Vite, HTML5, CSS3, Tailwind CSS, Zustand, Shadcn UI
Backend: Node.js, Express.js, REST APIs, Socket.IO
Databases: MongoDB, PostgreSQL, Knex
Tools & Services: Git, GitHub, VS Code, Clerk, bcryptjs, Clarifai, Cloudinary

EXPERIENCE

Independent Projects, Charlotte, NC | Full-Stack Developer | 01/2025 - Present

- Built full-stack applications using React, TypeScript, Node.js, Express, MongoDB, PostgreSQL, Socket.IO, Clerk, Cloudinary, and third-party APIs.
- Developed separate frontend/backend services with REST APIs, authentication, database persistence, and environment-based configuration.

Zero To Mastery, Remote | Open-Source Web Developer | 12/2025 - Present

- Contributed to open-source web projects using Git, GitHub, pull requests, issue tracking, and collaborative development workflows.
- Submitted frontend improvements, bug fixes, documentation updates, and code contributions while following project guidelines and review feedback.

PROJECTS

Sync | Full-Stack Music Streaming and Real-Time Chat App

GitHub: <https://github.com/brandonmay-dev/sync> | Live Demo: <https://sync.brandonmay.dev/>

- Built a full-stack music streaming and social listening app where users can browse albums, play songs, view online users, and message users in real time.
- Developed the frontend with React, TypeScript, Vite, Tailwind CSS, Zustand, and Shadcn UI for routing, playback state, responsive UI, and interactive user flows.
- Built backend API routes with Node.js, Express, MongoDB, and Socket.IO for real-time messaging, user presence, songs, albums, admin functionality, authentication, and Cloudinary uploads.

Smart Brain | Full-Stack AI Face Detection App

GitHub: <https://github.com/brandonmay-dev/smart-brain> | Backend: <https://github.com/brandonmay-dev/smart-brain-api> |

Live Demo: <https://smart-brain-app-32fac457676f.herokuapp.com/>

- Built a full-stack AI face detection app where users can register, sign in, submit an image URL, and receive a visual face-detection result.
- Developed the React frontend for authentication flow, image submission, REST API communication, and real-time bounding box rendering.
- Built the Node.js and Express backend for password hashing, PostgreSQL persistence, user entry tracking, and secure Clarifai API requests.

EDUCATION

Western Governors University, Remote

Bachelor of Science in Computer Science | Expected Graduation: August 2027

The Art Institute of Atlanta, Atlanta, GA

Associate of Arts in Audio Production | 2009
