

BRANDON MAY

Charlotte, NC | 704-248-1067 | brandon@brandonmay.dev | GitHub: github.com/brandonmay-dev | LinkedIn: linkedin.com/in/brandonmaydev | Portfolio: brandonmay.dev

JUNIOR FULL-STACK DEVELOPER

SUMMARY

Junior full-stack developer and Computer Science student building React, TypeScript, Node.js, and Express applications with authentication, databases, real-time features, REST APIs, and third-party integrations. Focused on production-style projects that solve practical frontend and backend problems.

SKILLS

Languages: JavaScript, TypeScript, SQL

Frontend: React.js, Vite, HTML5, CSS3, Tailwind CSS, Zustand, Shadcn UI

Backend: Node.js, Express.js, REST APIs, Socket.IO

Databases: MongoDB, PostgreSQL, Knex

Tools & Services: Git, GitHub, VS Code, Clerk, bcryptjs, Clarifai, Cloudinary

EXPERIENCE

Independent Projects, Charlotte, NC | *Full-Stack Developer* | 01/2025 – Present

- Built and deployed full-stack applications using React, TypeScript, Node.js, Express, MongoDB, PostgreSQL, Socket.IO, Clerk, Cloudinary, and third-party APIs.
- Designed separate frontend/backend services with REST APIs, auth flows, database persistence, real-time communication, and environment-based deployment configuration.
- Made architecture decisions around global state, media storage, API security, and frontend/backend separation.

Zero To Mastery, Remote | *Open-Source Web Developer* | 12/2025 – Present

- Contributed to open-source web projects through GitHub pull requests, issue tracking, bug fixes, documentation updates, and collaborative code review workflows.
- Followed project guidelines and reviewed feedback to improve frontend code quality while working in shared codebases.

PROJECTS

Sync | Full-Stack Music Streaming and Real-Time Chat App

GitHub: github.com/brandonmay-dev/sync | Live Demo: sync.brandonmay.dev

- Built a full-stack music app with persistent playback, real-time chat, and online presence.
- Used Zustand for global audio state so playback continues across routes without resetting.
- Implemented Socket.IO chat, presence tracking, auth, admin tools, and Cloudinary uploads.

Smart Brain | Full-Stack AI Face Detection App

GitHub: github.com/brandonmay-dev/smart-brain | Backend: github.com/brandonmay-dev/smart-brain-api | Live Demo: smart-brain-app-32fac457676f.herokuapp.com

- Built a full-stack AI face detection app with auth, image submission, and visual results.
- Converted Clarifai coordinates into pixel values to render accurate face boxes.
- Built Express/PostgreSQL APIs for auth, profiles, entry tracking, and secure AI requests.

EDUCATION

Western Governors University, Remote

Bachelor of Science in Computer Science | Expected Graduation: August 2027

The Art Institute of Atlanta, Atlanta, GA

Associate of Arts in Audio Production | 2009
